Objectives

My academic journey at Parisutham Institute of Technology and Science provided a foundation in computer science engineering. Despite facing difficulties in non-core subjects, my perseverance led me to embrace extracurricular learning paths. I found my passion in web development and delved into the intriguing realms of artificial intelligence and machine learning.Throughout my educational experience, I recognized the importance of self-directed learning. This realization motivated me to pursue avenues outside the traditional curriculum, where I could explore and excel in areas aligned with my interests. Despite setbacks in non-core subjects, I channeled my energy into cultivating a strong skill set in web development, driven by an insatiable curiosity for emerging technologies.

My focus on artificial intelligence and machine learning reflects not only a personal interest but also a commitment to staying at the forefront of technological advancements. I am eager to contribute my skills and knowledge to innovative projects and continue my growth in the dynamic field of technology.
